

If you haven't used the Whova App before, here is a short list of what it can do for you- before, during, and after the Tradeshow:

You can view each registered Exhibitor or Wholesale Buyer at the show (by name), Affiliation, Location under the ATTENDEES tab:

- View list of other EXHIBITORS by name, category and booth number. Each Exhibitor has a unique link – in which you can edit and upload your own business description, share show specials, add photos and more! [ask us how to claim your unique link]
- You can link your Attendee Profile to your social media accounts, add information - and even add a picture! Link your social accounts, and use hashtag #MiMShow19 on your posts
- You can message any Attendee, or request to "Exchange Contact Info." Direct email addresses are not displayed, but a request to contact may provide their information. [Please be respectful of people's privacy and do not attempt to bombard buyers with requests if they have not provided company affiliations or information]
- The LOGISTICS tab contains critical information such as a Site Map, Where to Eat/Shop in Helena, a Venue Floor Map / Parking information and other critical logistics as well as important documents.
- Add/Share PHOTOS of your products for all to see
- Check out SPONSORS of the show - click on their icons to be directed to their home pages
- Post quick messages or chat with all other Attendees in the BULLETIN tab. Introduce yourself, and post information or questions.
- Catch UPDATES and ANNOUNCEMENTS from Show Organizers directly on the app. If you do not have the app, these announcements will go to the email address we received with your registration.
- Participate in the Leaderboard gamification to win show floor credit.
